

Yojee Ltd.

Supply Chain Integrity for the Logistics industry

We recently spoke with Ed Clarke, CEO of Yojee Limited (ASX:YOJ), about how the company can help players in the Logistics industry streamline their operations through a holistic approach to supply chain management and distribution.

The company has signed a number of very well-known, global, logistics companies, including UPS, DB Schenker and Scharff, as customers and development partners.

We expect the network effect will be a key factor in driving YOJ's growth, i.e. customers bringing on board new customers, who in turn bring on new customers. We believe this network effect can be particularly strong for YOJ, given that its logistics software solution can be leveraged to encompass entire supply and delivery chains, regardless of where in the chain a customer is positioned.

Watch the full interview with Ed Clarke in the link below.

Supply Chain Integrity facilitated by Blockchain technology

We also spoke about YOJ's current development work to bring Blockchain technology to the Logistics industry. In our view, the company is well-advanced to be able to provide complete Supply Chain Integrity to its customers in the near future.

We reiterate our Buy recommendation for YOJ.

Number of shares (m)	847.4	
Number of shares FD (m)	950.6
